Yew mirror No.1 35cm wide x 96cm tall, 33mm thick  
£125.00 plus £15.00 p&p UK

All these mirrors are made from windblown trees which are planked and then kiln dried to 10% moisture content. All the mirror glass has a plywood template at the back of it and each piece of mirror has a safety film applied. In the unfortunate event of it being knocked off the wall the mirror will not shatter into hundreds of pieces. All the mirrors can be hung up either way as there is a fixing bracket at the top and bottom. To fix it to the wall a suitable size screw is all that is needed for the mirror to hang on it.

All the mirrors can be posted to anywhere in the UK. They are boxed up using plywood and a softwood frame is screwed to it.

We welcome visitors to the workshop by appointment.
